

27. (new) The method of claim 21 in which the therapeutically effective amount is about 0.28-0.42 gm/kg.
28. (new) The method of claim 21 in which the liposomes are administered once.
29. (new) The method of claim 21 in which the liposomes are administered more than once.
30. (new) The method of claim 21 in which the liposomes are administered in repeated doses.
31. (new) The method of claim 21 in which said liposomes are administered weekly.
32. (new) The method of claim 21 in which said liposomes are administered one dose per week for 4 to 16 weeks.
33. (new) The method of claim 21 in which said liposomes are administered one dose per week for 10 weeks.
34. (new) A method for treating a vascular disease or condition selected from the group consisting of atherosclerosis, hyperlipidemia, and hypoalphalipoproteinemia in a human comprising administering to a human in need thereof a pharmaceutically acceptable and a therapeutically effective amount of unilamellar phospholipid liposomes which are effective in promoting cholesterol mobilization while controlling or preventing an increase in LDL or esterified cholesterol levels.
35. (new) The method of claim 34 wherein the liposomes have a mean diameter between about 100 nm and 150 nm.
36. (new) The method of claim 34 wherein the liposomes are free of drug.
37. (new) The method of claim 34 in which the therapeutically effective amount is in the range of about 10 mg to about 1600 mg per kg body weight.
38. (new) The method of claim 34 in which the therapeutically effective amount is about 300 mg per kg body weight.
39. (new) The method of claim 34 in which the therapeutically effective amount is about 0.1-1.5 gm/kg.
40. (new) The method of claim 34 in which the therapeutically effective amount is about 0.28-0.42 gm/kg.
41. (new) The method of claim 34 in which the liposomes are administered once.
42. (new) The method of claim 34 in which the liposomes are administered more than once.
43. (new) The method of claim 34 in which the liposomes are administered in repeated doses.
